

# A Worship Symposium

## **No Flesh Worship Symposium**

This is the threshold to your next level of glory! Malachi 3:1 Ministries brings a living tabernacle experience to your front door in a 3 day institute that will revolutionize your understanding of worship. This is a summit symposium where worship is not taught, but *revealed*. It will strip you of your outer garments and all manner of flesh which sadly is so prevalent in music ministries today.

You will first discover by revelation exactly who you are in Christ and how He has fully equipped you for your assignment in the earth. Realize what you've obtained by committing your life to God and what He is expecting from you. You will learn to press pass the many distractions that vie for your attention. You will also learn how to be clothed with the humility that's required when you go before the Throne of Grace.

### **Day 1 – Laying the Foundation**

The first day is filled with four 90-minute intense teaching sessions that are sequenced to prepare participants to identify their God given giftings, understand their function in the Body and recognize their specific assignment to kingdom business. This is the foundation for knowing worship according to John 4:24. Day 1 concludes with a detailed study on the Holy Spirit. Elder Ronna will untangle the misunderstandings created by confused and erroneous teachings. Then participants are prepared to believe God for a biblical manifestation of His gifts in their life. They will experience a practical application of His presence, accurately discern His promptings and learn to distinguish them from their own natural inclinations.

### **Day 2 - Breakout Sessions, Practicum and Clinics**

The second day focuses on the Liturgy of Worship and is packed with workshop clinics for helps ministers (ushers, greeters, armor-bearers, etc.), dancers, minstrels, scribes and vocalists. Participants will learn to perfect their skills and surrender their gifts to the authority of God. Day 2 concludes with a general assembly session on Motive Gifts where participants do a fun exercise designed to identify their primary gifting and how it operates. Then they reassemble for an evening session where the motive gift explanations are read and the consecration service begins. Participants are divided into groups with a facilitator that will help them purge out the leaven of old hurts, wounds and any strife or bitterness. They will be humbled as they wash the feet of their brethren and prepare for an actual Tabernacle experience.

### **Day 3 – Shut-In**

Participants will present themselves at a life-sized replica of the brazen altar, ceremonially wash their hands at the brazen laver and enter the Holy Place for communion before going behind the veil into the Holy of Holies. They are encouraged to chronicle their experiences with the Father as they lay prostrate before the Lord. At sunrise, the shut-in concludes with an anointing service and candidates depart, prepared for a new level of glory in the things of God.
